

Mubeen Amjad

Full-Stack & AI Engineer

Faisalabad, Pakistan · mianmubeen205@gmail.com · linkedin.com/in/mubeenamjad205 · github.com/MubeenAmjad205 · mubeen.ddns.net

I build SaaS products end to end with Next.js, Node.js and Python, and ship AI features that are actually used: RAG, agents and speech-to-text.

Open to Full-Stack & GenAI roles · Remote or on-site

EXPERIENCE

Full-Stack & AI Engineer Current
Evolvo (QuantumBytes)

- Working on CutPro, a browser-based video editor for creators and social media teams, including its marketing-asset pipeline built with Remotion and Playwright.
- Building fintech automation and Telegram bots that deliver real-time updates to users.
- Deploying and operating production services with Docker and PM2.

Stack: TypeScript, Next.js, Node.js, Remotion, Playwright, Telegram Bots, Docker, PM2

Freelance Full-Stack & GenAI Developer (Part-time, Remote) Current
Freelance

- Part-time remote engagement (about 4 hours a day) alongside full-time work.
- Built multiple full-stack web applications and generative-AI features end to end for a client, from UI to deployment.

Stack: Next.js, Node.js, TypeScript, MongoDB, OpenAI Agents SDK, RAG

Full-Stack & Generative AI Engineer From Jun 2025
Wodwes Solution · Faisalabad, Pakistan

- Built Split a Chef, a platform where groups share a professional chef's meal plan and split the cost.
- Built a custom résumé/CV builder and several other full-stack SaaS applications.
- Integrated Stripe and Paddle subscription billing, and shipped RAG and AI-agent features.

Stack: React, Next.js, Node.js, Express, MongoDB, Stripe, Paddle, RAG, AWS

Full-Stack Developer Feb 2025 – Jun 2025
Sofrix Solution · Faisalabad, Pakistan

- Built Shopify apps for store owners on the Shopify GraphQL Admin and Storefront APIs.
- Built headless-commerce front-ends with Next.js and GraphQL.
- Refactored global state in multi-view React applications for reliable data sync.

Stack: React, Next.js, GraphQL, Shopify, Node.js, MongoDB, Redux Toolkit

Web Developer (Course -> Internship) Aug 2023 – Jan 2025
Gamica Cloud (GIAIC) · Faisalabad, Pakistan

- Completed the Web & Mobile App Development course, then continued as an intern on the team.
- Built responsive, full-stack web applications and learned team Git workflows and code review.

Stack: JavaScript, React, Node.js, Tailwind CSS

SELECTED PROJECTS

AI Portfolio with Talking Avatar
• This site: a self-hosted Next.js platform with a RAG chatbot, streaming AI agents and a talking 3D avatar of me.
Stack: Next.js, TypeScript, OpenAI Agents SDK, RAG, Socket.IO, Three.js, MongoDB, Docker
mubeen.ddns.net/projects/ai-portfolio-talking-avatar

CutPro — Browser Video Editor
• A browser-based video editor for creators and social media teams, built at Evolvo (QuantumBytes).
Stack: TypeScript, React, Remotion, Playwright
cutpro.q-bsolutions.com

Citywide Travels — Airport Taxi Booking

- A live UK airport-transfer business: instant quotes, online booking and payments, driver portal.

Stack: Next.js, TypeScript, MongoDB, Stripe, AWS

www.citywidetravels.co.uk

Siftwise — Autonomous Affiliate Content Engine

- Finds products worth recommending, writes platform-native posts, renders media and publishes safely to Pinterest, Instagram and Facebook — run from a Telegram bot.

Stack: TypeScript, Node.js, MongoDB, Telegram Bots, FFmpeg, Docker, PM2, GitHub Actions

website-ten-peach-65.vercel.app

Job Portal with AI Resume Review

- A job board where uploaded résumés are parsed and reviewed by an AI pipeline.

Stack: Next.js, TypeScript, LangChain, LangGraph, Gemini API, Prisma

job-listing-flax.vercel.app

Video Conferencing Platform (Collaboration)

- Real-time video meetings on a mediasoup SFU; I contributed authentication, WebRTC simulcast and a UI/UX overhaul.

Stack: WebRTC, Node.js, Socket.IO, Next.js, MongoDB

mubeen.ddns.net/projects/video-conferencing-webrtc

SKILLS

AI & Agents	OpenAI Agents SDK, RAG, LangChain, LangGraph, Gemini API
Automation	Playwright, Telegram Bots
Backend	Node.js, Express, FastAPI, GraphQL, Socket.IO, WebRTC
Databases	MongoDB, PostgreSQL, Prisma, Supabase
DevOps	Docker, PM2, GitHub Actions, AWS, Cloudflare Workers
Frontend	React, Next.js, Tailwind CSS, Framer Motion, Redux Toolkit, Three.js
Languages	TypeScript, Python, JavaScript, SQL
Payments & Commerce	Stripe, Paddle, Shopify
Speech & Media	Whisper, AssemblyAI, AWS Transcribe, FFmpeg, Remotion
